Re: *Bardy Diagnostic, Inc. v. iRhythm Techs., Inc.*  
C.A. No. 24-1355 (JDW)

Dear Judge Wolson:

iRhythm Technologies, Inc. (“iRhythm”) respectfully submits this letter to inform the Court that during tomorrow’s status conference it requests the opportunity to discuss the addition of two recently allowed patents to this litigation, each of which are related to presently asserted patents. iRhythm expects these patents to issue before the end of August and will seek leave to amend its counterclaims pursuant to F.R.C.P. 15(a) and 16(b) at the appropriate time.

To account for these new patents, iRhythm has proposed to Bardy modest modifications to the current case schedule, as reflected in Exhibit 1 hereto. These modifications would add dates for the exchange of contentions concerning the new patents and alter only certain claim construction deadlines while leaving the remainder of the current schedule in place. The parties have conferred about iRhythm’s proposal but were unable to reach an agreement.

With the Court’s permission, iRhythm is prepared to streamline its request for leave by starting the briefing process on its motion immediately, as the patents have been allowed, the issue fees have been paid, and the only remaining steps before issuance are administrative actions by the USPTO.

Respectfully,

*/s/ Brian P. Egan*

Brian P. Egan (#6227)
